

Payroll

Outsourcing and consulting services from experts for you

We have been offering our national and international clients comprehensive support and advice in the area of payroll accounting and personnel administration for many years. Our experienced team supports small SMEs and associations as well as larger clients in sectors such as advertising, energy, IT, insurance, retail, staff leasing and many more.

Your advantages

- Reduced administrative workload and focus on your core tasks
- Avoidance of errors thanks to our expertise and fixed deputization solution with dual control principle
- Comprehensive advice and correct application of legal provisions regarding social insurance, withholding tax and employment law
- Cost savings in the areas of IT infrastructure, software licenses, personnel requirements and training
- Flexible use of our resources, adapted to your current needs
- Risk minimization in the event of absences and departures of responsible employees

Our strengths

- Reliable contact partner with many years of experience
- Personal support from specialized employees
- Processes and services tailored to your individual needs
- Absolute confidentiality of your sensitive information and compliance with current data protection regulations
- Use of the latest version of Abacus payroll accounting software
- Ongoing internal and external training for our employees

Of course, we are also happy to support you with the following services:

- Temporary support in the event of staff shortages
- Health check payroll accounting - from a half-day review to an in-depth audit, including advice on processes and optimization potential
- Analysis and advice on the need for action in the event of changes to legislation and training for your employees
- Advice and correct handling of internationally active employees as well as national and international board mandates
